

# JMC 4 B-15

JMC 4 B-15 is a lightweight panel with excellent sound reduction.

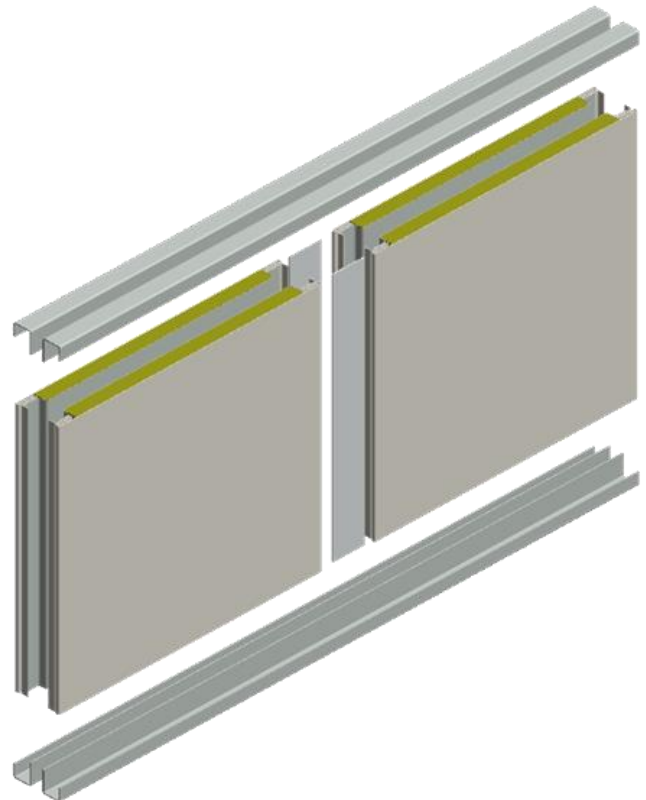

SBA panel B-15-class is perfect for all kinds of ships accommodations, including wet-unit and cabins.

The installation of the system is fast and easy.

The panels are made of galvanized steel sheets coated with a decorative PVC foil.

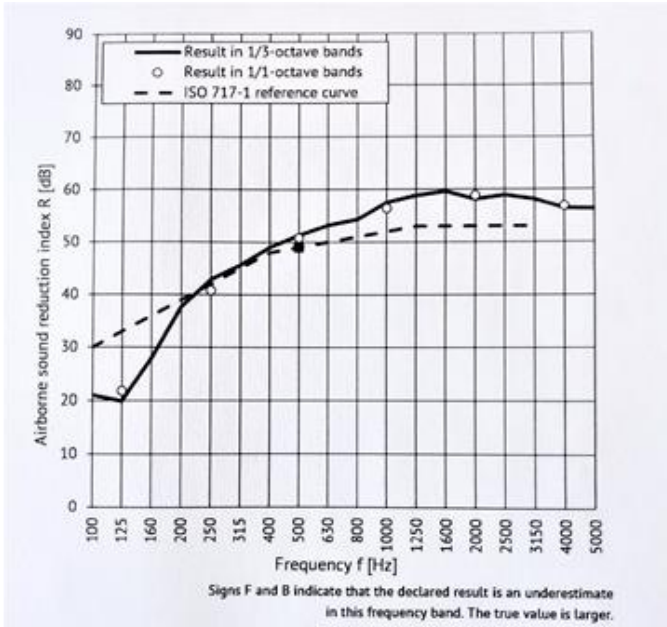

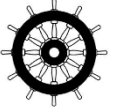

SBA panels are also available with printings.

The panels are made of non-combustible materials with a core of mineral wool.

| dB  | SBA panel     | cabin panel       | total weight      |
|--|---------------|-------------------|-------------------|
|  |               | Kg/m <sup>2</sup> | Kg/m <sup>2</sup> |
| 31   | single panel  | 12,6 kg           | 12,6 kg           |
| 45   | double lining | 12,3 kg           | 24,6 kg           |
| 47   | double lining | 13,0 kg           | 25,9 kg           |
| 47   | double lining | 12,3 kg           | 24,6 kg           |
| 49   | double lining | 11,3 kg           | 22,6 kg           |
| 50   | double lining | 13,0 kg           | 25,9 kg           |
| 52   | double lining | 16,5 kg           | 33 kg             |
| 53   | double lining | 18,0 kg           | 36 kg             |
| 57   | double lining | 18,7 kg           | 37,3 kg           |
