All SBA beds are manufactured of first class material, design and craftsmanship to meet requirements specific for marine conditions: non-combustibility, economy of space and weight, durability, easy handling by personnel as well as passengers and easy care.

Our products are tailor-made for each specific project.

On board ferries there is a need of alternatives for simple and practical sofa beds for passenger cabins. To meet this need SBA designed a backrest that combined with a single bed serves as a sofa in cabins.

The bedclothes, including an overlay mattress, are stored behind the backrest during the day, while the bed can be used as a sofa. The bedding can easily be released from the backrest for making the bed for the night.
